

RECAST SOFTWARE

Public Roadmap View

Recast Software

Empowering IT at every endpoint

Advance Fundamental Tools
Enrich daily tools that simplify work and save time

Deliver New Applications
Introduce new security driven solutions that help keep organizations safe every day

Satisfy Co-Managed Environments
Efficiently manage endpoints across SCCM and Intune

Improve reporting insights
Visualize and target compliance needs to reduce risk

2023 Recast Software Investments

Advance Fundamental Tools

- Improve user experience
- Advance security integrations
- Increase efficiencies through better automation

Satisfy Co-Managed Environments

- Manage devices across Intune and SCCM within the Configuration Manager Console
- Deliver beloved RCT capabilities for all endpoints

Deliver New Applications

- Increase security and control admin rights with Recast Privilege Manager
- *Recently Released!* Recast Application Manager aids to seamlessly patch applications

Improve Reporting Suite

- Improved functionality, load times, and deliverability
- Cohesive reporting across SCCM Console and RMS to serve different users

2023 Overview

Priority	Drivers	Up Next		Soon to Follow	Late 2023
